81823 München

Germany

Dear Friends and Colleagues;

On behalf of the Local Organizing Committee it gives me a great pleasure to invite you to the 30th Annual Meeting of ESHRE in Munich, Germany from 29 June to 2 July 2014.

Since Hamburg 1995 and Berlin 2004, Munich will be the forth city in Germany hosting the ESHRE Annual Meeting. Munich is known throughout the world as a dynamic, traditional, modern and economically successful city in the southern part of Germany. The Bavarian capital offers all the advantages you would expect of a leading international congress and exhibition venue in the heart of Europe. The surrounding landscape is enchanting. There are many historical and modern attractions available. Art, culture, recreational activities and sightseeing make every day an enjoyable one. Munich in the summer is a charming and exhilarating venue.

The venue chosen for this event will be the ICM – International Congress Centre Munich, one of the most modern and successful congress centres in the world that satisfies all requirements for events such as our Annual Meeting. It is about 20 minutes from the city centre by subway.

Human reproduction remains a scientific field marked by continuous progress, remarkable advances and unique achievements. Under the common umbrella of reproductive science and medicine, ESHRE brings together experts from all over the world and will gather a distinguished international faculty of clinicians and basic scientists in the related disciplines to address and discuss the most recent information, controversies and future directions.

However, the annual meeting is more than just a forum for exchange of knowledge. Munich will be an ideal place for meeting old and making new friends. The range of options for social programmes in the city is second to none.

We all look forward welcoming you in Munich at ESHRE 2014!

Markus S. Kupka MD, PhD

Local Organizing Committee
